Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

The claims contain limitations directed to various capsule compositions and coatings. Please choose one type of capsule body or cap from the list:

1. Capsule body or cap made from hydroxypropyl methylcellulose;
2. Capsule body or cap coated with a coating which is insoluble in an acidic medium;
3. Capsule or cap coated with a coating which is insoluble independent of pH;
4. Capsule or cap coated with a coating which is poorly soluble in an acidic medium;
5. Capsule or cap coated with a coating which is poorly soluble independent of pH;
6. Capsule or cap coated with a coating which is a combination of insoluble and soluble polymers;
7. Capsule or cap coated with a coating that is better soluble than a coating of the other capsule or cap;
8. Capsule or cap coated with a coating which are the same coatings;
9. Capsule or cap having the same coating thicknesses;
10. Capsule or cap having different coating thicknesses;

Art Unit: 1615

11. Capsule or cap having a coating composition comprising copolymers of acrylic and methacrylic acid;
12. Capsule or cap having a coating comprising a combination of ethylcellulose and hydroxypropylmethylcellulose; or ethylcellulose and hydroxypropylcellulose; and
13. Capsule or cap wherein one or the other is uncoated.

The species are independent or distinct because capsule technology is advanced to the point where different coatings can constitute and independent invention.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and **a listing of all claims readable thereon**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

A telephone call was made to John D. Thallemer on April 10, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
